

# TILE MATCHING GAME

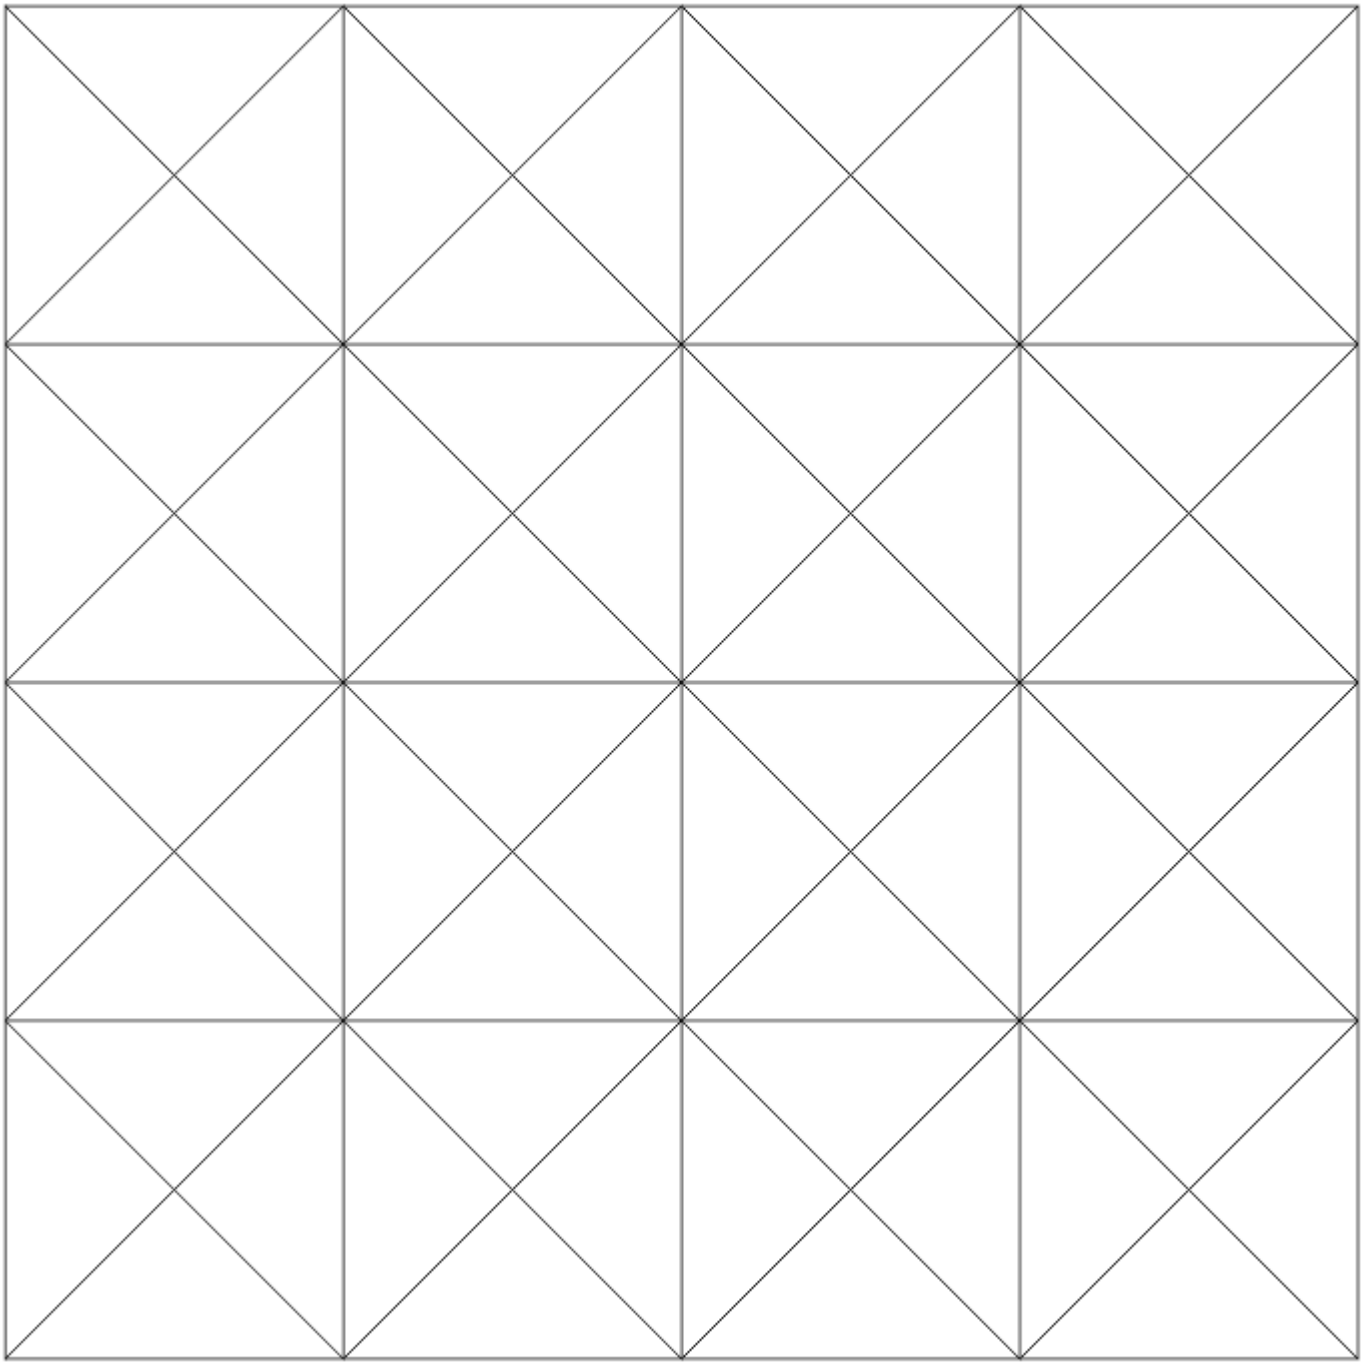

## FREE PRINT & PLAY DOWNLOAD

**SQUARE TILES:** Here is one solution for a perfect 4x4 square of 16 tiles with six colours:

Print this page on card stock, cut out the squares, shuffle and play to make the perfect square solution.

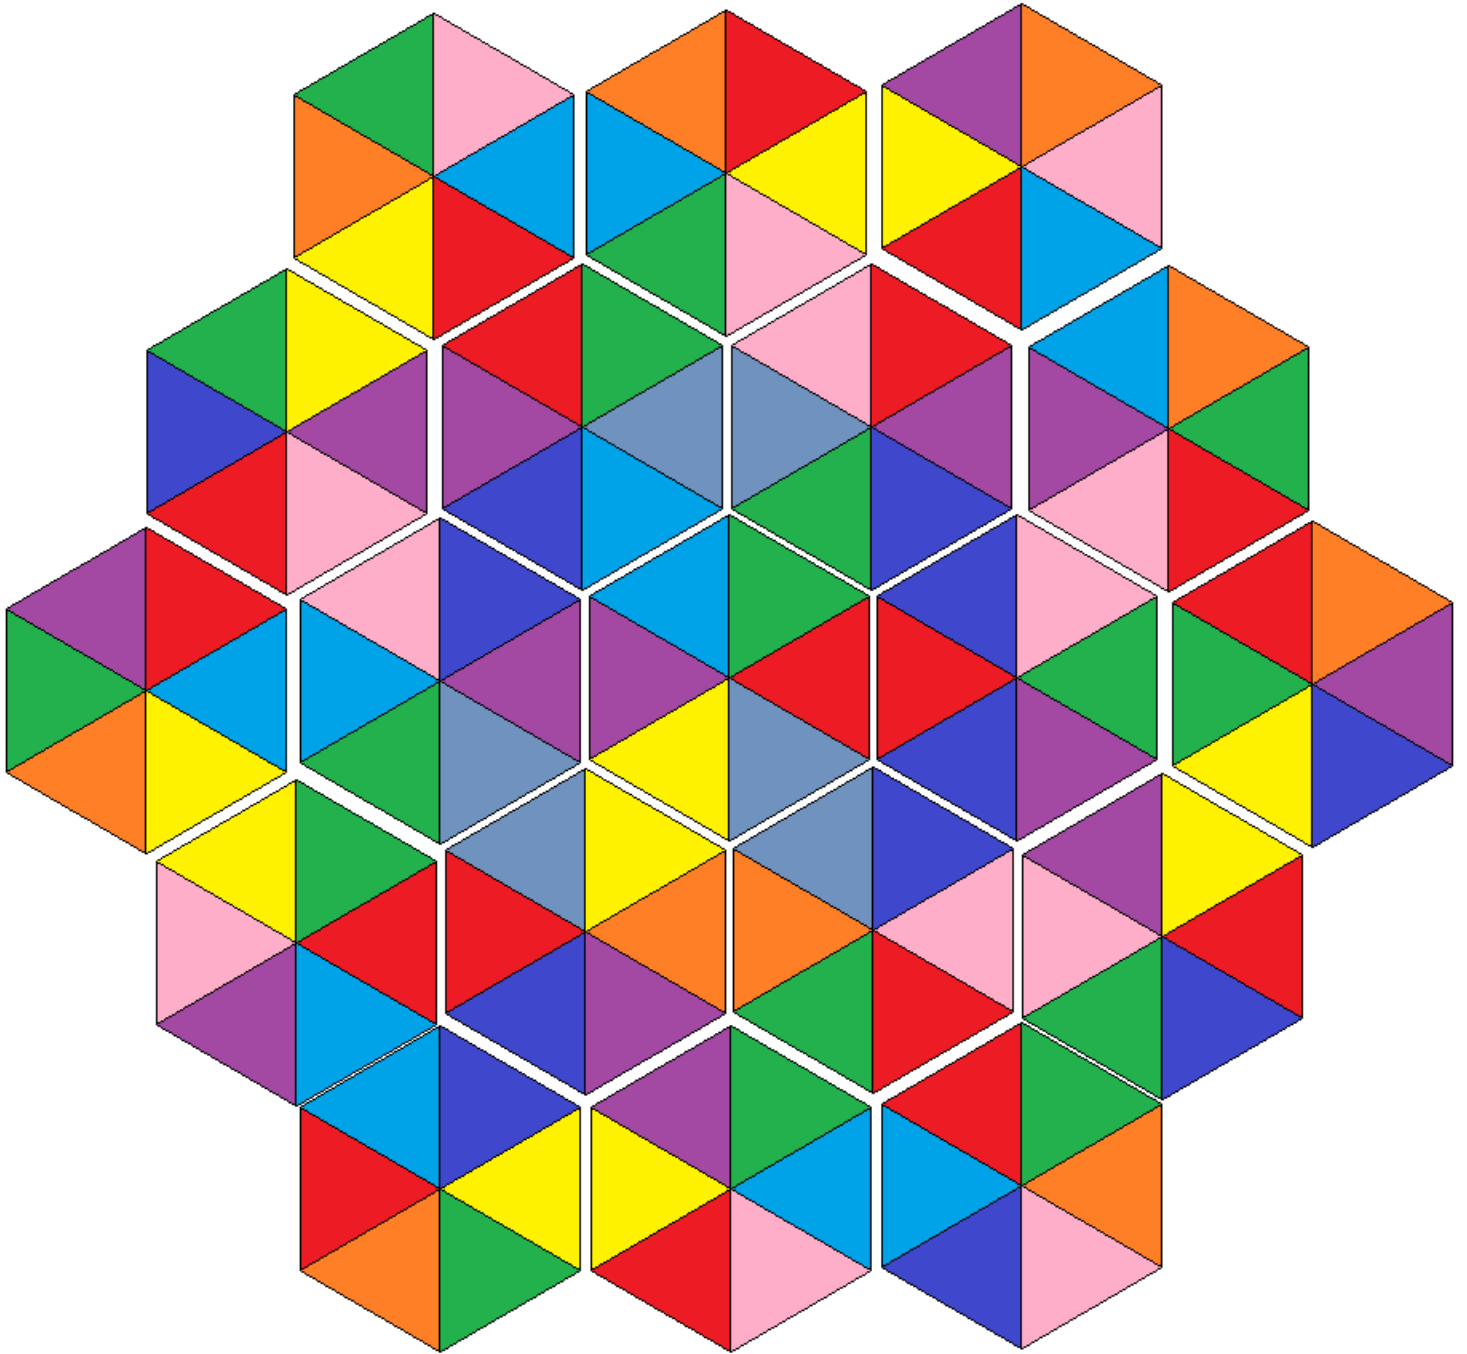

Here is a blank set of square tiles to colour and cut your own way:

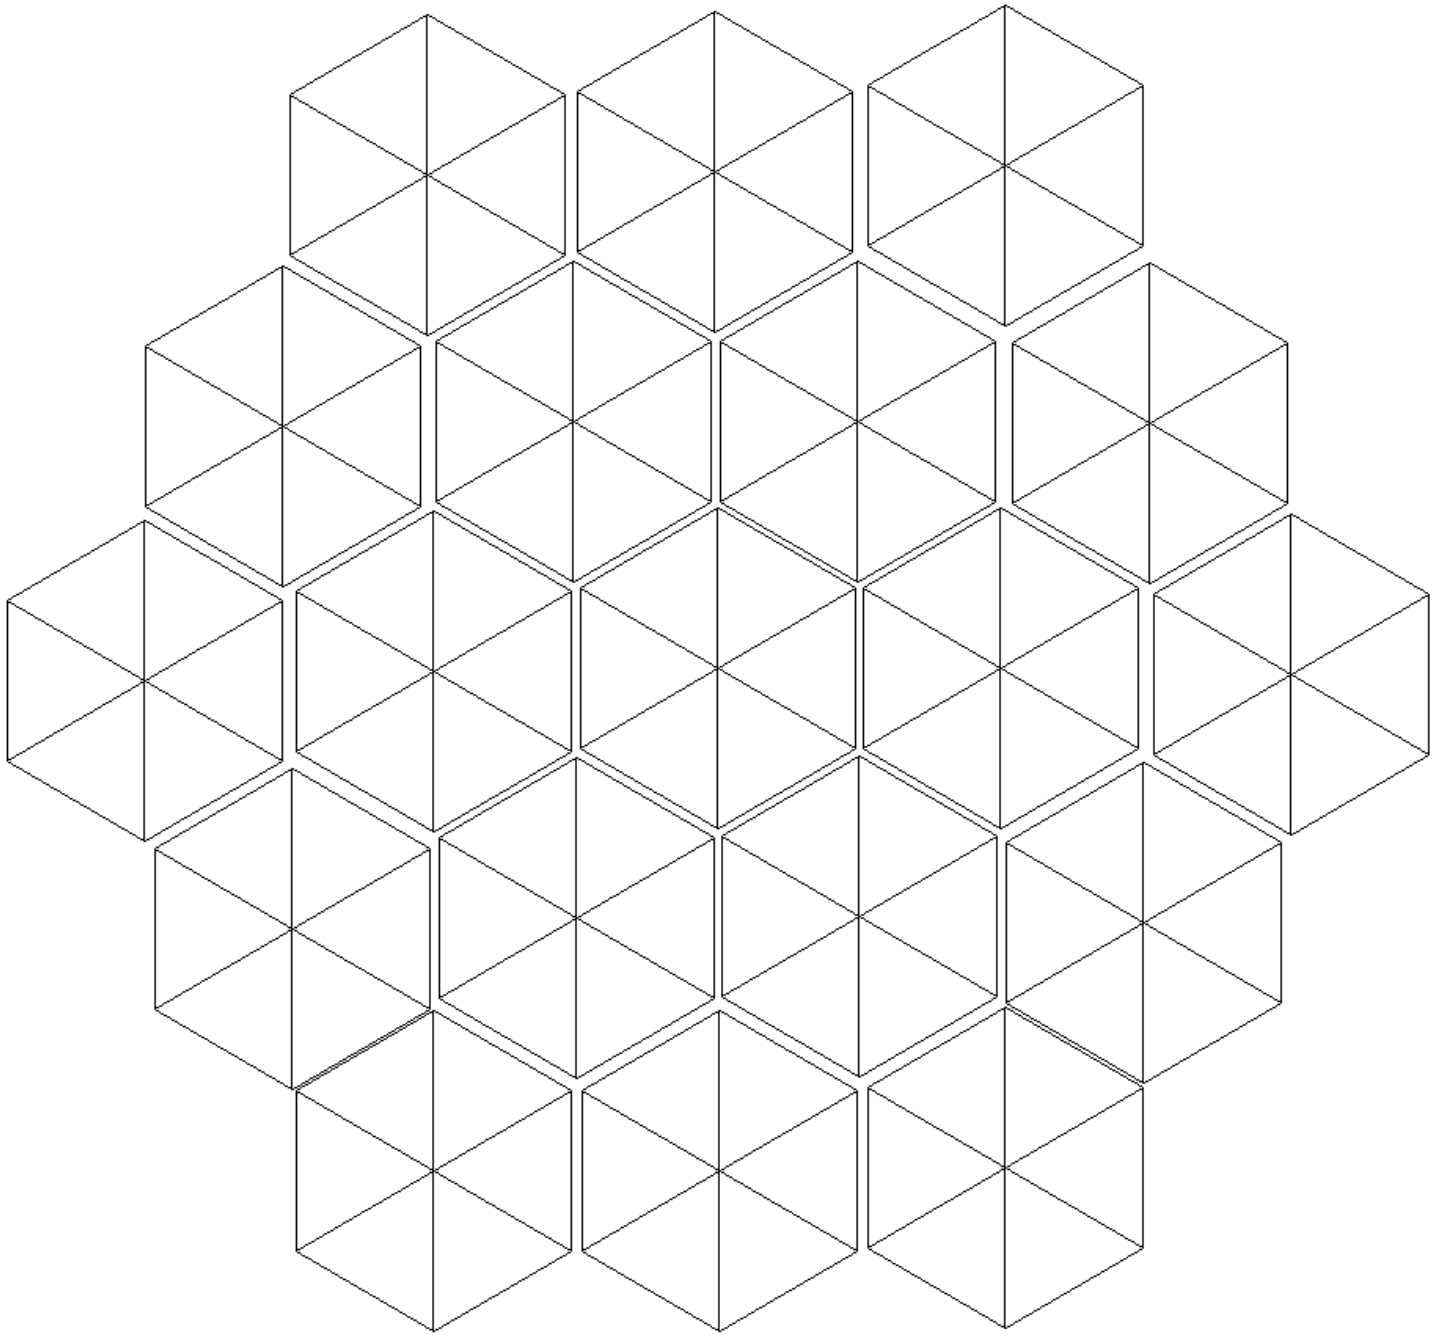

Print as many copies as you need. Colour facing pairs of triangles before you cut. Use four or more colours.

If you would like a laser-cut set of 16 or more blank wooden tiles, visit [www.Brainy.games](http://www.Brainy.games) where you can find all sorts of handmade, laser-cut, magnetic games and puzzles.

**HEXAGONAL TILES:** Here is the solution for a perfect hexagon with eight colours. Each hexagon has four colours:

Here is a blank set of hexagonal tiles to colour and cut your own way:

Colour your own tiles.
